

Online medical and behavioral care

You and your dependents may* have access to online medical and behavioral health services anywhere in the United States. That means you can see and talk to:

- A doctor for minor illnesses such as a cold, flu or sore throat when your primary care physician isn't available
- A behavioral health clinician or psychiatrist to help work through different challenges such as anxiety, depression and grief (Behavioral health visits are available by appointment only.)

While online health care shouldn't replace your relationship with your primary care physician, it can be invaluable when:

- Your doctor isn't available.
- You can't leave home or your workplace.
- You're on vacation or traveling for work.
- You're looking for affordable after-hours care.

How do I get started?

Start by doing one of the following:

Mobile – Download the BCBSM Online VisitsSM app from the App Store[®] or Google Play[™]

Web – Visit bcbsmonlinevisits.com

Phone – Call **1-844-606-1608**

No service key is required.

Share information with your primary care physician

Tell your primary care physician when you use online health care to make sure your doctor can stay on top of your care. At the end of your visit, check the box to share your visit report with your family doctor or other health care providers.

How much does it cost?

For medical services, an online visit is based on your office visit cost share. Costs for behavioral health services vary depending on the type of provider and service received. You'll be charged using your existing outpatient behavioral health benefits.

Questions?

If you have questions regarding online health care, contact:
